

WELCOME TO

FAMILY MATH

A multi-platform family engagement program
that builds math positivity, confidence, and
knowledge of foundational math skills for
families with children ages 2-5.

Family Math is:

Bilingual
Research-based
Standards-aligned

Playful
Intergenerational
Hands-on

Topics:

**Sorting &
Collecting**

**Number
Sense &
Counting**

Patterns

Shapes

**Spatial
Sense**

Measurement

What's in the Toolkit:

- Activity Videos
- Workshop Guides
- Games
- Activity Books
- Learning Overviews
- Instructional Videos
- Games, Book Lists and more!

PARENT REFLECTIONS:

“I learned that mathematics can easily be kept in mind in daily life as when eating a cookie, when preparing a sandwich, or by looking at the shapes of our entire home”

“I used to fear math as a child, but now I am positive and I'm confident that I can pull through.”

Data collected from over 7,000 caregivers shows that Family Math successfully grew caregivers' knowledge of foundational math skills by 10% while increasing confidence by 14% and math positivity by 12%.
