

# Bubble Frames

## You will need:

- Pipe cleaners
- Straws
- Thread
- Bubble solution

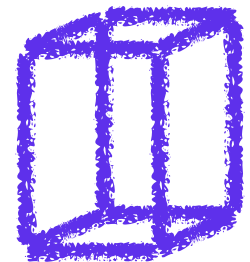

## How to Play:

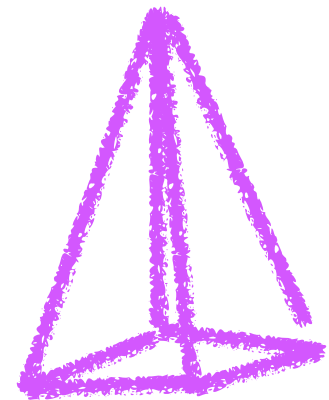

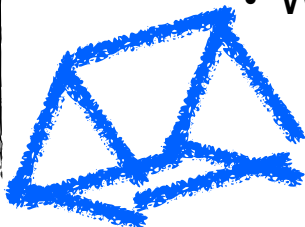

- Decide what shape you will build - rectangular prism, pyramid, cube, etc.
- Construct the shape using straws and pipe cleaners. Insert the pipe cleaners into the straws as you build - like this:

- Tie a piece of thread onto the shape so you can lower it into the bubble solution.
- Look at your shape when you remove it from the bubble solution.

- What do you notice?

Bubble frame made from pipe cleaners inside straws
