

Tally Game!

This is a game to play while traveling in a car.

You will need:

- Paper and pencil for each player
- A timer

What to do:

- For one player:
 - Pick two car colors to look for. Write the colors side-by-side on top of the sheet of paper. Draw a line down the middle of the page to keep the tallies for each color separate. Before you begin make a prediction of which car color you will see more of.
 - Set a timer for 20 minutes. Each time you see a car that is one of your colors, make a tally in the column for that color. Was your prediction correct? Why do you think that color was on more cars than the other?
- For two or more players:
 - Each player picks one car color to look for. Each player writes their color at the top of their sheet of paper.
 - Set the timer for 20 minutes. Each time a player sees their car color they make a tally on their sheet. At the end of the 20 minutes, the player with the most tallies
