

Cuisenaire Orange Rods

Goal: Figure out what combinations equal 10!

You will need:

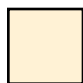

- Cuisenaire rods

How to play:

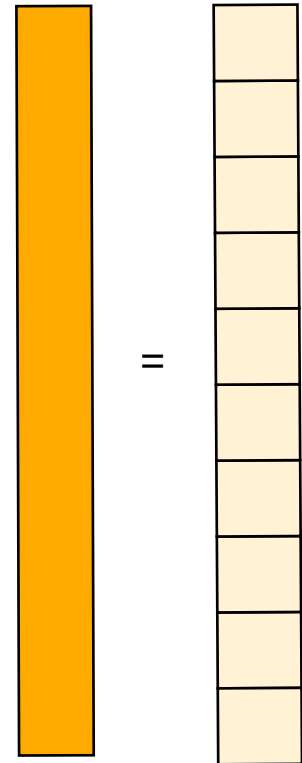

- Find ten different combinations equal to ten units. Prove that each combination really equals ten units. Show or explain how you know.

To think about:

- What combinations of rods did you find that are ten units long?

 = 1Unit

The tan Cuisenaire rod
is one unit long.

The orange Cuisenaire
rod is ten units long.

Notice that:

 +  = 10 units

 +  = 10 units
