

Paper Airplane Designs

Paper Airplane Instructions #1

- Fold one piece of paper the long ways, and then open it.
- Then, fold the two top corners so they meet at the center crease.
- Next, fold the entire top down so it looks like an envelop.
- Then, fold the top corners so they meet in the middle (the remaining piece under will be folded up over the edge of the corners created).
- Flip it over and fold it in half.
- Then, fold the wings over, from the tip of the plane to the back edge. Swing the wings up into a horizontal position and you are ready to fly!

Paper Airplane Design #2

- Fold one piece of paper in half the long ways, then open it.
- Then, fold the two top corners so they meet at the center crease.
- Again, fold the top corners so they will meet at the center crease.
- Fold it in half and create a crease.
- Then, fold the wings over starting at the tip of the plan to the back.
- Repeat on both sides.
- Swing the wings up into a horizontal position and you are ready to fly!
