

## Building Larger Squares

Can you make a larger square from three orange squares?

Can you make a square from four orange squares?

Build four different sized larger squares from small orange squares.

What is the total number of small orange squares in each of the larger squares?

How many squares long is the length of the side of your new larger squares?

Describe your new squares by completing this table:

LARGER SQUARE	NUMBER OF SQUARES IN EACH SIDE	TOTAL NUMBER OF SQUARES USED IN THE LARGER SQUARE
Square 1		
Square 2		
Square 3		
Square 4
